Dear Marshall,

This letter is to recommend Unified Services of Texas, ("UST") which has been this Company's exclusive fuel system installation and remediation "partner" for the past 15 years. UST has helped the Barney Holland Oil Company successfully and economically make the transition from a typical fuel distributor into the largest fleet card marketing company in North Central Texas.

It is a pleasure to work with UST's consummate professionals because they are unfailingly well-informed on regulations, codes, and safety issues. Also, UST's comprehensive insurance coverage with highly rated carriers sets it apart from many of its competitors. It gives companies a great deal of comfort, knowing that if something does go wrong, UST's strong insurance coverage will protect everyone involved.

In conclusion, we highly recommend UST to valued customers with no reservations, because we know that they will not be disappointed. We look forward to continuing our relationship with UST as we increase our Fuelman card-activated motor fuel sales.

Regards,

Barney B. Holland, Jr.
President
