To Whom It May Concern:

Subject: Unified Services or Texas, Inc. (UST)

ASSET Group is pleased to provide this letter of recommendation for UST. We have enjoyed our relationship with UST as we have worked together on projects for the Veteran's Administration (VA) in Dallas and Bonham Texas through a contract with the Corps of Engineers. The contract consisted of constructing a fueling station at the Dallas VA and removing and replacing underground storage tanks at both the Dallas and Bonham locations which all had to be scheduled around the VA's operations.

UST did an excellent job in adjusting their labor force and managing material deliveries in order to meet the schedule. Their flexibility enabled the project to be completed with minor interruptions to the owner. As issues arose on the project, UST had the knowledge and ability to provide cost effective solutions.

It is always nice to work with a company that views the General Contractor / Subcontractor relationship as a "team". It was a true pleasure working with a talented and dedicated company like UST. We would definitely invite them to "team" up with us again.

Sincerely,
ASSET Group, Inc.
